Reviews

It is one of the best books. Indeed, it really is a play, nevertheless an amazing and interesting literature. It is extremely difficult to leave it before concluding, once you begin to read the book.
(Sofia Yundt)

CHILDREN AND ANTHROPOLOGICAL RESEARCH

Springer-Verlag New York Inc., United States, 2011. Paperback. Book Condition: New. 254 x 178 mm. Language: English . Brand New Book ***** Print on Demand *****.The first time that we, the editors of this volume, met, a chance remark by one of us, newly returned from fieldwork in Fiji, quickly led to an animated discussion of our experiences doing anthropological research with children. Following that occasion, we began to seek each other out in order to continue such conversations, because we had found no other opportunity to discuss these significant events. We knew our experiences were rich sources of cross-cultural data and stimuli to rethinking anthropological theory and methods. A cursory review of the literature on fieldwork revealed, to our surprise, that fieldworkers' experiences with children were rarely and only briefly mentioned (Hostetler and Huntington, 1970, are an early exception). In order to learn more about research that included the ethnographers' children, we organized a conference on the topic at Michigan State University on May 1, 1982. This volume includes papers from that conference, as well as insights and ideas from the formal and informal discussions among the conference participants and audience. This volume, like the conference which preceded it, is intended to be the effects of accompanying children on anthropological an exploration of field research and on the effects of fieldwork on the children themselves. Additionally, we see this book as part of an anthropological inquiry into research as a cultural process, by which is meant the effects of the researchers' cultural identity--class, gender, age, ethnicity, and other characteristics--on fieldwork. Softcover reprint of the original 1st ed. 1987.
