Further Electrical and Electronic Principles

By Christopher Robertson

Taylor Francis Ltd, United Kingdom, 2008. Paperback. Book Condition: New. 3rd Revised edition. 262 x 194 mm. Language: English . Brand New Book. Further Electrical and Electronic Principles is a core text for pre-degree courses in electrical and electronic engineering courses. The coverage of this new edition has been brought in line with the specialist unit Further Electrical Principles of the 2007 BTEC National Engineering specification from Edexcel. As the book follows a logical topic progression rather than a particular syllabus, it is also suitable for other Level 3 students on vocational courses such as Vocational AS/A Level, City Guilds courses and NVQs. More advanced material has also been included, making this text also suitable for HNC/HND and foundation degree courses. Each chapter starts with learning outcomes tied to the syllabus. All theory is explained in detail and backed up with numerous worked examples. Students can test their understanding with end of chapter assignment questions for which answers are provided. The book also includes suggested practical assignments and handy summaries of equations. In this new edition, the layout has been improved and colour has been added to make the book more accessible for students. The textbook is supported with a free...
