Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from Qualitative Analysis: As a Laboratory Basis for the Study of General Inorganic Chemistry This text presents the course of instruction given by the author to the freshman classes at the University of California where the exigencies of vocational courses render it impracticable for a large number of students to devote more than one year to general inorganic chemistry and to qualitative analysis as well. Therefore, the scheme of qualitative analysis is made to serve as a means of correlating the apparently independent experiments of general chemistry. Thus, while the end in view is primarily the imparting of a knowledge of the general subject, familiarity with analytical methods is obtained. The course presupposes good chemical training in the secondary schools, many of its briefer statements being in the nature of a review rather than of first presentation. No attempt has been made to emasculate the work by eliminating the consideration of more difficult points. On the other hand, the tests for individual elements have been varied in order to familiarize the student with as many significant...
